

WHAT'S **NEW** FROM **APR**

Solder Pot with Porcelain Crucible

- Tins, pre-tins, and solders items such as stranded wire, electrical components, and circuit boards using 500° to 975°F temperature range
- Extends service life and prevents corrosion in high temperature applications with porcelain coated crucible

670030 - \$800.00

Workbench with Monitor Bracket

- Houses the APR Scorpion Rework System and Purex FumeCube
- Creates an ergonomic and flexible work area with its dual accessory posts and one dual-tilt monitor bracket

670027 - \$1,425.00

Scorpion Auto Focus Camera

- Pairs with the Scorpion Rework System to provide solder reflow visibility and rework inspection
- Saves and recalls images and videos onto an SD card for quality control documentation

670029 - \$4,000.00

Scorpion & Scarab Machine Cover

- Protects the machine and its contents from ESD, dust, and other contaminants
- Attenuates electrostatic fields and electrostatic discharges (ESD)

670026 - \$150.00
